

CORPORATE & PROMOTIONAL GIFTS CATALOGUE

OUR JOURNEY TOWARDS A SUSTAINABLE FUTURE

For a future worth living, we need to be serious about sustainability. And that is precisely what we, as Europe's largest supplier of promotional products, are. Together we are stronger, so we invite you to join us on this journey towards a more sustainable future. We do this by promoting and offering an ever-increasing collection of safe, compliant promotional giveaways, gifts and corporate apparel with the people and planet in mind.

A HOLISTIC APPROACH TO SUSTAINABILITY

We turn our words into clear actions. That is why we have developed a holistic multi-year strategy embedded in four of the United Nations Sustainable Development Goals (SDGs). This way, you can enjoy the art of gifting sustainable products and also be sure that they are developed and produced in an equally responsible manner. It means that our core challenge is not only to create sustainable products and branding techniques. We also take responsibility at all levels in our organisation and our supply chain.

VISION 2025

The overarching goal of our holistic multi-year strategy is based on SDG 12: Responsible consumption and production and is translated into three strategic pillars: People, Products and Processes. We continue to increase the use of (GOTS, GRS, FSC certified) organic and recycled materials and sustainable branding techniques in all our product categories. And although change comes step by step, our aim is high. By 2025, we want all newly launched products and packaging to contain sustainable materials.

People

As part of SDG 8 Decent work and economic growth, we build a more transparent supply chain and support our vendors to develop sustainable labour conditions. We want everything to be crystal clear for you and aim for fully traceable supply chains for our tier 1 and 2 vendors by 2025. As a member of Amfori, we trade with purpose and work towards a future in which all product development takes place at third party audited vendors.

Products

Healthy underwater life is essential since it is the most diverse and important ecosystem that regulates the climate and absorbs carbon emissions. Based on SDG 14 Life below water, we focus on using sustainable materials such as recycled plastic instead of virgin plastic in our products.

Process

Guided by SDG 13 Climate action, we improve our performance by measuring the carbon footprint of our European facilities and our products. To do this, we partner with Nature Office, which helps us reach our goal of 50% CO2 emission reduction from our products and production by 2025.

For more information on the sustainable development goals, scan the QR code.

HIGHLIGHTS FROM OUR GREEN CONCEPT COLLECTION

H2O Active[®] Bottles

We partnered with Prevented Ocean Plastic for our UK-made H2O Active® bottles. They offer recycled plastic collected from coastal areas at risk of ocean plastic pollution. By buying these bottles, you indirectly prevent plastic from entering the ocean.

Elevate NXT

The promotional apparel and bags of Elevate NXT are fully GOTS or GRS certified, from the threads to decoration inks. You are 100% assured of a sustainable product.

FROM PET UMBRELLAS
TO FSC® CERTIFIED PAPER

In each category, we offer sustainable alternatives. Think of recycled PET umbrellas and bags to pens made of recycled bottles, bamboo or wheat straw. We also offer an increasing range of recycled paper products and notepads, memo blocks and sticky notes from FSC® certified paper. So you can always make a sustainable choice.

Americano® & Authentic recycled drinkware

A part of our reusable Americano® tumblers consists of 100% recycled plastic. The ones that, for now, still consist of virgin pp are mono-material and thus easy to recycle. The same goes for our Authentic range of recycled glassware.

YOUR FINISHING TOUCH

Custom decoration is a great way to reinforce your brand identity. Especially if, as shown throughout this catalogue, you apply it to multiple items. A wide choice of quality techniques, including the impressive new textile method HXD, means you can get both the look you want and the quality you need. Whether you prefer cool and subtle, distinctively stylish or to boldly grab attention, you can rely on us for expert service. Feel free to ask us for advice and inspiration.

DIGITAL PRINT

Perfect for multi coloured logos - Create a unique effect with matt, gloss or embossed finishes - This full colour print option also applies to paper insert products - Strong resistance to fading or damage - Ideal for smaller quantities - Can only be applied to flat or slightly curved surfaces

IN-MOULT

An innovative way to mould your design into a product at the point of manufacture - Allows full colour designs to a selection of products, through the patented Brite* process.

LITHO PRINT

Delivers vibrant, high quality print to paper items such as desk pads - This high speed print option delivers excellent consistency - Uses four colour process as standard

RELIEF MOULD

Add an extra dimension with this tactile branding method - Custom tooling allows your message to be moulded into the product, with an embossed end effect

FLEXOGRAPHIC

A form of rotary print, allowing print on flexible materials (for example ribbons) - Up to six spot colour print is possible with this method

360 DIGITAL PRINT

The 360 Digital Print method allows to put customer photos or logos straight on the bottle - It is 360 degrees decoration with photo-realistic, full color print (CMYK) on drinkware - Method provides good adhesion on plastic, aluminum, metal, glass - UV-LED inks are used

3D EMBROIDERY

With special 3D foam we can offer embroidery printing with a 3D effect - This kind of decoration is durable and provides a very high quality visual effect - We can apply it on hats, softshell, aprons or bags - Colours are available from Madeira standards with one colour decoration - Logo should be simple, with straight fonts, without decorative elements or very narrow lines

DIGITAL PAPER SLEEVE

A decoration method dedicated to items with a gift box - A paper sleeve is placed around a gift box enriching the packaging effect - Method provides photo-realistic print, available from CMYK colours - 300 g/m2 glossy finish paper is used

DIGITAL STICKER
